QC NEW YORK

QC WORLD

Intuition, analysis and long-term vision have led to the successful combining of the salus per aquam tradition of ancient Imperial Baths with the modern desire for revitalising experiences in places of extreme beauty.

This is how, back in 1982, it all began -- a story of hardship and perseverance that led brothers Saverio and Andrea Quadrio Curzio to transform QC Spa of Wonders into Italy's largest group in the wellness sector.

The success of their model, which focuses on the renovation and revitalisation of historic or greenfield buildings located in remarkable natural settings, has led to the expansion of QC Spa of Wonders destinations to some of the most well known metropolitan and tourist areas in the world.
